EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Compton on 9/27/07. Claims 1-27 are directed to species nonelected without traverse.

The application has been amended as follows:

In the claims:

Claims 1-27 have been canceled.

In claim 28, line 3, the word "and" has been deleted.

Allowable Subject Matter

Claims 28-37 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art of record fails to disclose or fairly suggest:

- A plurality of LEDs each having a plurality of resistive members spaced over the cathode or anode, wherein each of the resistive members has a different resistance, and at least one conductive contact carried on each of the resistive members; and a conductive wire coupled through a contact to a respective one of the resistive members of each of said diodes to thereby form an interconnected string of diodes that will each carry a respective current when a voltage is applied to said wire, in combination with the remaining claimed limitations as called for in claim 28 (claims 29-37 are allowable for the same reasons since they depend from claim 28).

Art Unit: 2879

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
